WOODEN TILES

Rethink wood flooring.

Let your new wood-flooring be the protagonist of your home! Get inspired with new ideas to makeover your own place choosing the innovative GIANT® Tiles made of prestige solid wood, in an array of patterns and rare wood-species. You can pave the whole area of your rooms with tiles or create an inset rug pattern in the traditional wood-flooring with straight installation, made out of the same or of a different wood species, as you like it better!

Reinventa il tuo parquet.

Fai del tuo nuovo parquet il protagonista della tua casa! Lasciati ispirare da nuove idee per dare personalità ai tuoi spazi, scegliendo le innovative composizioni GIANT®, realizzate in prezioso legno massiccio e disponibili in vari disegni di posa e specie lignee rare. Puoi utilizzare i quadri GIANT® per pavimentare l'intera superficie della stanza o inserire solo qualche quadro nella pavimentazione in parquet con posa a correre.

Tiles made 100% of solid wood.

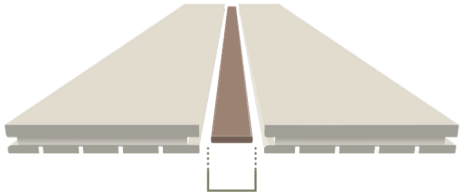

GIANT® tiles are all made of prefinished solid hardwood flooring planks 20 mm. thick with various fixed lengths that are arranged in a decorative pattern to create a mosaic effect. This kind of laying pattern is peculiarly suitable for paving wide and prestigious rooms.

They are supplied as loose pieces beveled on 4 sides and with groove & grove on all 4 sides, that can be easily assembled on construction site through spline joints (supplied with each order).

Quadri realizzati con il 100% di legno nobile.

I Quadri GIANT® sono realizzati con listoni di parquet di varie lunghezze fisse, in legno nobile massiccio prefinito di 20 mm. di spessore, che vengono installati secondo una precisa geometria di posa, che genera un disegno unico e caratteristico. Questa tipologia di posa, molto scenica e decorativa, si presta particolarmente a pavimentare ambienti spaziosi e prestigiosi.

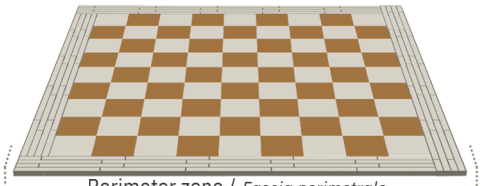

I listoni, che danno vita al disegno di posa, vengono forniti bisellati e con profilo femmina-femmina sui 4 lati. Devono essere incastrati durante l'istallazione tramite apposite anime in legno, che sono da noi fornite in ogni ordine.

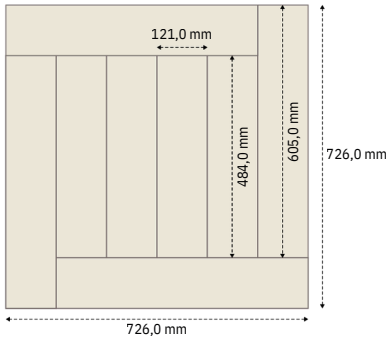

Spline joint / *Anima in legno*

We suggest to enhance the symmetry of the patterns paving the perimeter zone of the room with classic GIANT® (random lengths and straight installation), that creates a beautiful contrast compared with the wooden tiles and gives you the chance to avoid the installation of incomplete modules.

Consigliamo di mettere in risalto la simmetria dei disegni di posa completando la pavimentazione con una fascia perimetrale realizzata con GIANT® classico (lunghezze miste e posa a correre), che crea un piacevole contrasto rispetto alla restante pavimentazione in legno e dà la possibilità di evitare l'istallazione di moduli incompleti.

HERRINGBONE PATTERNS

The same quality as usual in a new shape: this is the fresh novelty of the latest GIANT® collection.

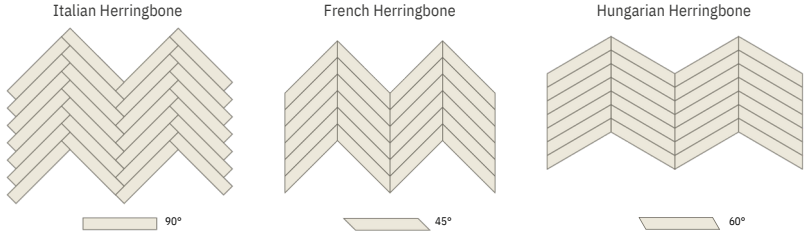

Herringbone patterns that featured of its solid parquet boards to the
the noble mansions of the past (their opulent design of the most wanted first use in
wooden floors in Europe patterns: elegant geometrical and dates back to 16th
century) have been symmetrical motifs that add class
used frequently in design and now and sophistication in both residential they are
living a new youthfulness in and commercial spaces. Just as
the field of architecture.traditional GIANT®, our herringbone GIANT® rides the
wave of this parquets are all perfectly compatible decorating trend adding the
preciosity with underfloor heating.

La stessa qualità di sempre, ma in forma diversa: questa è la novità dell'ultima collezione GIANT®.

*Le pose a spina che caratterizzavano autentici listoni massicci alle pose a
i palazzi nobiliari del passato (le prime disegno più richieste oggi: schemi
realizzazioni in Europa risalgono geometrici e disegni simmetrici che
al 16° secolo) sono state usate donano raffinatezza e un'atmosfera
frequentemente nel mondo del design esclusiva sia a spazi residenziali che
e ora stanno vivendo una nuova commerciali. Come tutti i pavimenti in
giovinezza in campo architettonico.legno massiccio GIANT®, anche la
GIANT® ripropone questo trend nostra collezione di spine è ideale per il
decorativo, unendo il prestigio dei sui riscaldamento a pavimento.*
